HEADQUARTERS, ARMY OF THE POTOMAC.

WASHINGTON, NOV. 9, 1862.

General Sherman, yesterday, in a skirmish with General Stewart, near Little Washington, captured three pieces of artillery; also, a captain, lieutenant, and five privates. No loss on our side has been reported.

General Bayard yesterday occupied and now holds the railroad bridge across the Rappahannock. The bridge is not injured. The bridge across Broad Run has been destroyed. There is nothing new up to this writing (five o'clock) from the front, at the Rappahannock.

The weather is clear and cold.

Five and Loss of Life.

NEW YORK, Nov. 9.—The Roman Catholic Orphan Asylum for boys, on Bedford avenue, Brooklyn, was totally destroyed by fire, at two o'clock this morning. There were 348 boys in the institution, and they were nearly all rescued. Only two are known to have perished. All excepting 36 were taken to the girls' asylum and Congress Asylum, and the remainder, it is hoped, into private homes in the neighborhood. But for the services of firemen and citizens, there must have been a terrible calamity.

LATEST FROM KENTUCKY.

CINCINNATI, Nov. 9.—A special dispatch to the Cincinnati press says that on Wednesday night a battalion of Col. Shackelford's Eighth Kentucky cavalry was attacked by a large force of guerrillas, under Col. Fowler, on Pond river, seven miles from Madisonville, Kentucky. The attack was promptly met, and the rebels compelled to retire with a loss of eight killed, including Col. Fowler, and a large number of wounded and prisoners.

FROM SIGEL'S ARMY.

Longstreet's Corps at Culpeper—A Battle Anticipated in that Vicinity.

On the 5th inst., Col. Wymann advanced with his cavalry brigade and a battery of artillery beyond New Baltimore, driving in the rebel pickets this side of Warrenton. Establishing himself on a hill about a mile beyond New Baltimore, he posted pickets within a mile of Warrenton. This afternoon the rebels drove back our pickets and advanced on Col. Wymann's main body. Our two pieces of artillery were advantageously posted on a hill commanding the Warrenton turnpike, by which the enemy were advancing.

About half a mile from us was an opening in the wood where we first discerned the rebels in force. They were nearly all on foot, and our artillery opened on them. The enemy advanced in solid column, evidently not suspecting the presence of our large guns, and, as they came on, they were mowed down by our guns, and our artillery opened on them. They came on at a tearing rate, yelling vociferously, until they had passed the opening in the wood, when our retreating pickets turned to one side, and our artillery opened on them. The advance of the rebels was checked, and they were then driven back to their camp. They then fled precipitately.

Captain Flint, of the First Vermont cavalry, was in command of the picket guard in front of Warrenton. He lost four men wounded, and several are reported missing. The loss of the rebels is not known.

FROM THE FRONT.

GAINESVILLE, Nov. 8.—A deserter from the rebel army states that Longstreet's corps, 20,000 strong, is at Culpeper.

From the fact that strong earthworks are being thrown up across the Rappahannock, at Rappanock station, the inference may be drawn that a battle is anticipated in the vicinity of Culpeper.

Scouts returned from Fredericksburg report about eighty cavalry at that place.

Two men belonging to the First Virginia cavalry, C. S. A., were captured near Dumfries.

The remaining rebels made a hurried retreat from Warrenton yesterday, on the approach of Gen. Reynolds' forces, who took possession of the town without firing a gun. The advance of cavalry and the driving in of our pickets, occurring the day before, was only to cover their withdrawal, which had already commenced.

Three Thousand Rebels at Plymouth Surrounded—They Surrendered Unconditionally—Fortress Monroe Affair.

Special Correspondence of the Phila. Inquirer.

FORTRESS MONROE, Nov. 8, 1862.

The garrison of Fortress Monroe, which arrived here last night from Newbern, N. C.

Gen. Foster had left Newbern with some thirty thousand men, and had gone to Plymouth, and, with about eight thousand men, surrounded some three thousand rebels, about one-half of whom were cavalry. The "rebels" wished to make terms, but Gen. Foster was obstinate, and demanded an unconditional surrender, and they, finding they could do no better, yielded with a good grace.

[Our letter from Fortress Monroe makes no mention of the capture of rebels reported above, and we doubt the reliability of the account.—Baltimore American.]

FROM FORTRESS MONROE.

FORTRESS MONROE, Nov. 7.—The steamship S. H. Spaulding arrived here this morning, from Alexandria, with the Twenty-second Maine regiment.

The Baltimore boat arrived this morning at 9 o'clock. She brought 37 rebel prisoners from Fort Mifflin to be sent up on the next day of travel.

A severe northeast storm with sleet and snow has been raging here since last evening.

[We to the storm, the mail boat from New York has not arrived to-day. So far we have heard of no disasters, but from the severity of the storm apprehensions are entertained.]

## ARRIVAL OF THE SCOTIA.

Lord Lyons's Passage—Exciting Stories from Bermuda.

NEW YORK, Nov. 8.—The steamer Scotia has arrived, with advices from Liverpool to October 25.

Lord Lyons returns by the Scotia.

The steamer Scotia had arrived at Liverpool from Bermuda. She brought sundry reports as to the hostile intentions of Gen. Wilkes, one statement going so far as to say that he blocked the port and refused to withdraw his ships at the request of the Governor, sent a boat to the Gladiator, and ordered the captain to go on board his vessel, which the captain refused, being, at the time, under protection of the British man-of-war, which ran out her guns ready for action. The Gladiator was then allowed to proceed. The matter attracts attention in England, and it is said that orders will be issued for the immediate reinforcement of the West India squadron.

The cabinet council, which had been summoned did not sit, and the Army and Navy Gazette infers that Lord Lyons returns to Washington without any instructions for a change of policy, except such as may be necessitated by contingencies.

Mr. Cobden advocates the abolition of commercial blockades, and the seizure of private property.

The peace on the English and French coasts resulting has been enormous. The gale also did great damage in France.

A duel took place between M. Dillon, editor of Le Sport, and the Duke de Gramont Cadourne, in which the former was killed.

A revolution has been inaugurated in Western Greece, and the revolted towns have organized a Provisional Government. Troops are being sent to the scene of insurrection. Eastern Greece remains tranquil.

The London Times thinks that the neutrality, on which the Government prides itself, is the greatest error to that party.

The Daily News points out that the speeches of Congress members of Parliament, recently delivered, indicate that Mr. Gladstone had made, but few proselytes, among intelligent members of the Confederate cause.

Mr. Gladstone has issued an explanation of his recent remarks. He holds himself fully responsible for what he said as to the formation of the Southern nation, but not responsible for inferences which have been drawn. Numbers of the members of Parliament have been addressing public meetings. All refer to America, but generally refrain from urging the recognition of the South.

LIVERPOOL, Oct. 25.—Cotton has a downward tendency. Flour is steady, but firm. Provisions are flat and weak.

Thanksgiving Day in Missouri—Terrible Steamboat Disaster.

ST. LOUIS, November 7.—Governor Gamble has appointed Thursday, November 27, as a day of thanksgiving.

The case of Judge Lackland, recently arrested for encouraging the rebellion and opposition to the Government in its prosecution of the war, has been referred to Maj. Gen. Curtis, whose decision has not yet transpired.

About ten o'clock yesterday morning, the steamer J. H. Dickey, of St. Louis, was wrecked on the Illinois river, about five miles above the mouth of the Mississippi. The vessel was carrying a large number of passengers, and was bound for St. Louis. The wreck was discovered by a fisherman, who found the boat had run aground on the Illinois bank, and lay fastened in the mud.

In about fifteen minutes, while the passengers were being rescued, the vessel was wrecked. The vessel was carrying a large number of passengers, and was bound for St. Louis. The wreck was discovered by a fisherman, who found the boat had run aground on the Illinois bank, and lay fastened in the mud.

## NEWS SUMMARY.

The storm throughout the North and East has been very severe. In Boston, Portland, Bangor, and other places, snow has fallen to a considerable depth. The storm was pretty widespread in its range, and we read of snow lying in many places throughout the far West.

The recent cold storm must have been a severe trial to our soldiers in Northern Virginia, among the mountains of the Blue Ridge. We are glad to learn that they are well clothed, have good shoes, blankets, etc., and they may, therefore, have protected themselves tolerably from the inclemency of the weather. But how is it with the rebels in Lee's army—very many of them from the far South? Many of them without shoes, and all thinly and poorly clad, their sufferings must be intense. Our troops have suffered from the malaria of the Southern swamps. It is now their turn to meet the rigors of our Northern climate.

The Missouri Democrat is confident of the defeat of H. P. Blair, Junr., for Congress. It says that Mr. Blair has come two hundred miles over Mr. Knox in the district, exclusively of the soldier vote, but that this vote will be largely in favor of Mr. Knox. It is known that Mr. Knox is even more anti-slavery than Mr. Blair, whose election a few years ago was hailed with great satisfaction by the party of progress. The world moves.
